OPENING SPEECH

Institutional memory that allows rely on achievements of previous generations in it`s activity is one of the main feature of successful organization. So we decided to combine all information about Institute of Social-Cultural Management for 15 years of it`s existence in one Report. In our opinion, it allows to see the main tendencies of development and evolution of the organization, and also to remember important events for us and our friends.

Lev Abramov
ISCM director

STEP 1 IDEA

About Institute of social cultural management (ISCM)

Institute of Socio-Cultural Management is a non-political, non-profit, non-religious, non-governmental regional organization which was established in 2000, and in 2001 was incorporated.

The main thematic priorities of ISCM are the community development, transformation of cultural institutions into the centers of local activity, the development of democratic processes and the promotion of Euro-Atlantic integration of Ukraine.

ISCM mission is to promote democratic transformation of Ukrainian society by supporting community development, independent information space and integration processes at the local level.

The main activities of ISCM are educational, information, research.

Our guiding principle:

- ✓ The main priority of ISCM is the development of community ;
- ✓ for us development of communities it is development of people;
- ✓ the indicator of measurement of development of people is the level of a social capital;
- ✓ level of a social capital is a level of trust between people;
- ✓ we support the local initiatives through the Centers of local activity;
- ✓ our technology is social animation;

- ✓ we teach social activists for becoming of social animation the part of life of community.

The main forms of ISCM work

- ✓ conducting educational events (seminars, workshops, conferences)
- ✓ development of teaching aids
- ✓ holding researches
- ✓ advocacy campaigns,
- ✓ informing the target audience (thematic Internet pages, newsletters, press conferences)
- ✓ administration of grant programs.

STEP 2 STAFF

The staff of ISCM - a team of experienced professionals who specialize in solving social and cultural needs of the public. Each employee is devoted to business and is an important link in the general work of the organization. A wide range of experience and responsibility for the quality of a result provides a high level of research, seminars, training, development of teaching aids, online resources and administration of grant programs. The competence of each team member meets the requirements of modernity.

DISTRIBUTION OF PROJECTS ON A GEOGRAPHICAL BASIS

** Interregional projects covered a few Ukrainian regions. Regional projects were realized in the Kirovohrad region*

«Development of an independent informational space of Ukraine», 2003

Donor: «Eurasia» Foundation

Aim of the project: To promote the development of independent informational space in Ukraine

Task of the project: promotion of the development of independent informational space in Ukraine by the creation «Press-club» platform for journalists on the basis of working «Catalog of the press of the CIS and Baltic» Internet-project .

Results of the project:

During the implementation some creative products such as Bulletin «NGO-Inform» №1 (25), 2 (26), educational and methodical manual "Informational support of process of the solution of social problems at the local level", training "Information support of process of the solution of social problems at the local level" were created. They have been highly appreciated by clients.

The complex of the actions directed to training of trial group of journalists of a press club which has been intended

for an intensification of development of the mechanism of information support of the solution of social problems with use of modern information technologies and opportunities of the existing network infrastructures has been carried out. Work of the regional Agency of Social Information (ASI) for journalists of "Press club" of Kirovohrad which was an advisory and service element on the organization of information exchange with use of modern technologies has been organized.

Representatives of OGS which have been captured by the educational program began to use the differentiated sources of information influence on a social environment more widely.

The analysis of the obtained quantitative and high-quality information allows to conclude that the information channels used by ISCM for implementation of the mission is optimal because they supplement each other and allow reaching cumulative effect in informing the public on activities of public activists at the local level, and also

highlighting the "success stories" of activities of NGO for the solution of social problems at the local level in the bulletin is justified as the information which is requested by readers is provided.

«Yes! Youth», 2003 – 2004

Donor: «Human rights foundation»

Aim of the project:

To improve experience of the organizations of the Kirovohrad region in to the sphere of the organization and administration of clubs of intellectual development for youth with the purpose to interest them

Task of the project: To expand experience of the organizations of the Kirovohrad region in to the sphere of the organization and administration of clubs of intellectual development for youth with the purpose to interest them

Results of the project:

Professional qualification of 25 trainers, captains and heads of clubs of intellectual games of all region was improved. The round table which purpose

was an establishing of constructive dialogue between leaders of intellectual movement and authorities was carried out.

Holding intellectual games has helped to draw attention of representatives of the press to a problem of protection of the rights of youth for leisure

Appearance of articles and information messages about activity of KOLIR and ISCM in the local press.

50 manuals for leaders of intellectual movement of the Kirovohrad region were printed. The web-resource for leaders and participants of intellectual movement of the region was created .

Festival of the intellectual art was held for youth. «Brain ring», «What? Where? When?», «Daugavpils, «Own game» games were held.

Thanks to the events that were held within the project

the ratings of the Kirovohrad teams at All-Ukrainian competitions of League of the Ukrainian clubs were upgraded, and also raised influence of KOLIR on decision making processes in the sphere of youth policy in the area.

ISCM has made it within the "General Way to the Future" project in January-February, 2010 in the territory of the Kirovohrad, Chernihiv, Rivne, Nikolaev and Dnipropetrovsk regions of Ukraine.

2013 Interaction of institutes of civil society with executive authorities in the course of realization of state policy in the sphere of ecology.

The research is devoted to identification of optimum ways of interaction of institutes of civil society and executive authorities in realization of the state environmental policy. It was carried out by expert poll by a questioning method in territories of the Kirovohrad, Kiev, Lviv, Dnipropetrovsk and Donetsk regions.

STEP 11 CONTRIBUTION TO DEVELOPMENT OF A COMMUNITY

We change people, people change communities

Tens of the centers of local activity based on recreation centers and libraries in the different areas of Ukraine on methodology of Institute of sociocultural management were created. Public activists seized management bases in the sociocultural sphere, features of writing of projects, technologies of social animation and skills of communication thanks to participation in the ISCM educational projects. As the result, the Ukrainian communities received qualified specialists who show productive activities at the local level. In 2014 the participant of School of civic participation-1" - Leonid Zhovtilo has won the third competition "The Best

Practicians of Local Government" in the "The Best Practicians of Areas" nomination nomination with his "Creation of the centers of local activity for development of society on the basis of houses and libraries" work.

In 2014 a competition has been held under the auspices of the Ministry of the region of Ukraine which was also based on methodology of the Council of Europe as well as the previous competitions for the first time .

Publications of ISCM are in demand among workers of the scientific sphere. They use materials of editions in writing of scientific works: articles, researches, methodical collections, etc. According to *Google Scholar* * the index of bibliographic links to ISCM is 73 references. The index is a key indicator, it is widely used around the world for job evaluation in the scientific sphere, it reflects the number of links to the edition.

STEP 13 FEEDBACK

Volodimir Oros
*NGO Center of youth
«KINDNESS» of Dobropillya
Donetsk region.*

My acquaintance with ISCM has happened at a conference where I listened to all information from experts with pleasure. To become I was lucky the participant of "School of civic participation" in a year. Thanks to School I received management bases in the sphere of culture, and also I had an idea of creation of the center of local activity. And here in several years my dream was realized thanks to support and knowledge, received on trainings from ISCM. Undoubtedly, it is one of the significant organizations in Ukraine which played an important role in my public life. Happy birthday, I wish you new fulfillments and graduates!

Lydmila Afanasieva
*Organization of physically
disabled people «Charm
Vasytkivka village
Dnipropetrovsk region*

I am very glad that was trained at "School of civic participation-1". I have gained a lot of useful knowledge, have learned about experience of others as it is very important to know what occurs in public life across all Ukraine. I have got acquainted with pleasant people who work for the benefit of society. You have interesting and useful projects. After each training, coming back home, there is great desire to work. I wish that work of ISCM was always lightened in news. You always know what we need and that for us will be useful!

Tolstik Nikolay
*Public organization "School of
Life",
Nova Cherneshchina,
Sakhnovshchinsky area,
Kharkov region*

I want to express sincere gratitude to the team of the ISCM for organizing actions for public activists. Trainings, practical sessions, involvement of the Ukrainian and international trainers opened new opportunities for me and helped for successful work directed on the interests of society. Participation in this project is an increase of my professional skill as public activist. Personally for me "The school of civic participation - 2" was a unique platform which became a work reference point for development of society. I am proud of that was lucky enough to be the participant of this school.

Vitaliy Morgun
*«Tamarisk» Center,
 Dnipro city*

ISCM is the organization with which it is very easy and pleasant to cooperate. The organization sees strong and internal potential in people. They patiently develop skills of participants on their events. Coming to your organization I feel safe as at home. I am thankful to you for my progress!

Natalya Vinnichenko
*Public organization «Council of
 Young Scientists», Sumy*

The School of Civic Participation — 2 project, personally for me, became the beginning of new activity in my life. This project gave a strong impetus and dynamics of personal and professional development. Many ideas which were possible to embody thanks to training on "School of civic participation - 2" turned in the head on the way back from an every training. Except strong professional support, this project is also possibility of new and interesting acquaintances, exchange of experience, the organization of cooperation and discussion. It is worth noticing professionalism of organizers of school, each meeting left behind only positive memoirs and high level of the acquired knowledge.

Leonid Zjovtilo
*NGO Development of initiatives
 of society foundation»
 Mala Wyska ton
 Kirvograd region*

The first steps which showed the result I made thanks to a cooperation with ISCM. The constructive teaching part, practical skills which the staff of Institute gives helped me today to create those ideas and practices which we do in our society and which yield positive result.

Egor Nesterov

*Charitable organization
"Gorky Fund of Development
of Society", Gorky,
Dnepropetrovsk area*

I associate "School of civic participation - 2" with the word "development", participation in the project positively affected my outlook, I started thinking more objectively and seeing more opportunities for realization of the ideas. I received many useful tools, methods of features of development of society. New knowledge and acquaintances is that the School presented to me. Now I have many contacts across Ukraine, and also, abroad. I got positive experience and I consider that in this project it will be involved more and more people.

Tatyana Shokolova

*ORBIKC president
Oleksandriya town,
Kirovohrad region.*

ISCM is a team which always encourages and supports aspiration of people to self-improvement. Your activity is aimed at the development of people who introduce the ideas. Your own progress is measured by progress of those people whom you taught. Exactly thanks to your team, the serious army of public activists has received baggage of useful knowledge which brings the maximum benefit to society and promote self-organization of the population, continuous interaction and support, and the enthusiasm, readiness for active actions for development of civil society in the regions is the main things! We congratulate you and we wish that human gratitude always remained the highest assessment of your efforts!

Volodymyr Dmytrenko

*Public organization "Center
of development of the child
and family "Rodis", Horishni
Plavni town, Poltava region.*

I gained new knowledge in social animation in society, fundraising, developments of society and adjustment of the social capital, and also personal development thanks to "School of civic participation-2". It gave me the chance to work for development of Komsomolsk more effectively. New acquaintances with colleagues from all over Ukraine also were useful. Gratitude for ISCM for opportunity to take part in this projects should also be expressed, I wish success to participants of following School-3 as well.
